Homepage: www.glsgmbh.de

GLS bietet Ihnen mit diesem Katalog eine der umfassendsten Kollektionen an Glasfacetten und Facettenbildern in einer ausgezeichneten “Qualität made in China” an. China hat gerade in diesem Bereich in Sachen Fertigungs-Know-How und Qualität mit Europa und Taiwan gleichgezogen. Diamantscheiben zum Schleifen der Bevel und Cluster sind selbstverständlich.

Der sehr enge Kontakt zwischen **GLS** und seinen Fertigungsbetrieben ermöglicht die vorliegende Kollektion, welche sowohl eine Auswahl von klassischen als auch modernen Designs umfaßt. Dadurch kann eine nahezu unerschöpfliche Auswahl für fast alle Einsatzbereiche angeboten werden. Somit wird der Entwicklung, dass gerade Glasfacetten als Gestaltungselement in Fenstern und Türen immer beliebter geworden sind, Rechnung getragen.
Die auf den folgenden Seiten gezeigten Glasfacettenelemente und Facettenbilder lassen sich untereinander so kombinieren und anordnen, dass immer wieder völlig neue Gestaltungs-möglichkeiten entstehen, so dass die Auswahl von Designs für die Gestaltung von Glasflächen in Fenstern und Türen, Glasdecken, Spiegeln, hinter leuchteten Bildern usw. nahezu unerschöpflich werden.
In den letzten Monaten haben wir eine verstärkte Nachfrage nach solchen Gestaltungselementen verzeichnet, weshalb wir uns ständig bemühen, diese vorliegende Palette zu erweitern und zu ergänzen, um so den heutigen Anforderungen für die Gestaltung von Glasflächen gerecht zu werden. So sind wir auch in der Lage, relativ kurzfristig Sonderanfertigungen und ausgefallene Wünsche unserer Kunden zu realisieren.

Grafische Darstellungen:

Alle abgebildeten Facetten und Facettenbilder sind je nach Originalgröße im Maßstab 1:5 oder 1:10 dargestellt (siehe Angabe unten auf einer Seite), so dass die Auswahl der Elemente für einen Gestaltungsentwurf wesentlich vereinfacht ist. Die Maßangaben beziehen sich immer auf das kleinste umschreibende Rechteck, sofern im Artikel nicht anders angegeben. Einzelelemente sind in den jeweiligen Tabellen erläutert. Trotz größter Sorgfalt bei der Erarbeitung der Grafiken und dieses Kataloges können Fehler nicht ausgeschlossen werden, weshalb wir keinerlei Gewährleistungen und/oder Haftung für Darstellungen, Maßangaben, Bezeichnungen usw. übernehmen können.

Serviceleistungen

Die vorliegenden Abbildungen liegen grundsätzlich als Vektor-grafik vor und können gegen ein geringes Entgelt als maßstabsgerechte Vektorgrafik oder Pixelgrafik erworben werden. Auf Anfrage erhalten Sie von uns auch einen 1:1 - Zeichnung. Selbstverständlich erarbeiten wir Ihnen auch einen kompletten Gestaltungsentwurf mit entsprechendem Ausdruck nach Ihren Vorstellungen oder entsprechend Ihrer Vorgabe.
Sollten Sie eigene Designs für Facetten und/oder Facettenbilder wünschen, so teilen Sie uns dies bitte mit, bei technischer Machbarkeit setzen wir Ihr Design auch um.

Danksagung

Wir bedanken uns bei allen Personen, welche durch ihre Hinweise, Vorschläge und Bemerkungen an diesem Katalog mitgewirkt haben. Scheuen Sie sich bitte auch in Zukunft nicht, uns auf Fehler hinzuweisen und/oder Verbesserungen im Layout mit uns gemeinsam vorzunehmen.

With this catalogue **GLS** offers you one of the most comprehensive bevel and cluster collections in an excellent quality “Made in China". It is particularly in this area that China has moved alongside Europe and Taiwan, in respect of production expertise and quality. Diamond discs, for the grinding of the bevels and clusters are matter-of-fact.

The very close contact between **GLS** and this production plants has enabled this collection, which comprises a selection of both classical and modern designs, as a result of which an inexhaustible range exists for virtually all applications. This correlates with the increasing popularity of bevels as a design element in windows and doors.

The bevels and clusters presented on the following pages can be combined and arranged to create constantly new designs so that the choice of designs for glass surfaces in windows and doors, glass ceilings, mirrors, back-lit pictures etc. is virtually inexhaustible.

In recent months we noted an increased demand for such design elements, which is why we are constantly working at extending and supplementing this range, to meet the current requirements for the design of glass surfaces. As a result, we are also in the position to realise custom-made items and creative wishes of our customers at short notice.

Graphic display:

All bevels and clusters are displayed on a scale of 1:5 or 1:10 (see information at the bottom of page), so that the choice of elements for a design is rendered significantly easier. The measurements always relate to the minimum bounding rectangle, unless indicated otherwise in the article. Individual elements are explained in the respective tabes. Despite applying the utmost caution in developing the graphics and this catalogue, errors cannot be excluded, which is why we are unable to issue guarantees and/or accept liability for displays, measurements, terminology etc.

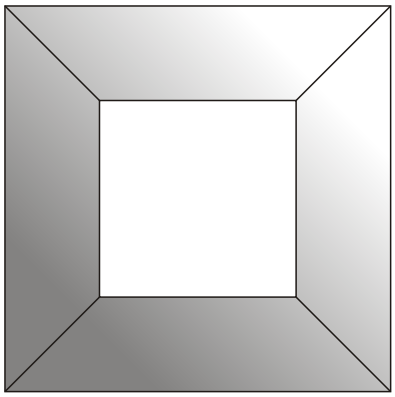
Services

On principle, the images are available as vector graphics and can be purchased as a true-to-size vector graphic or pixel graphic against a small fee. on request we can also provide you with 1:1 drawing. Naturally we can also create a complete design with the corresponding print-out in accordance with your ideas or your details.
Please let us know if your own designs for bevels and/or clusters; if technically feasible, we are happy to realise your design.

Acknowledgement

We wish to thank everyone who provided notes, suggestions and comments, this assisting in establishing this catalogue. Please fell free to continue pointing out any mistakes to us in the future and&or to realise and improvements of the lazout in

Bestellhinweise/Ordering information

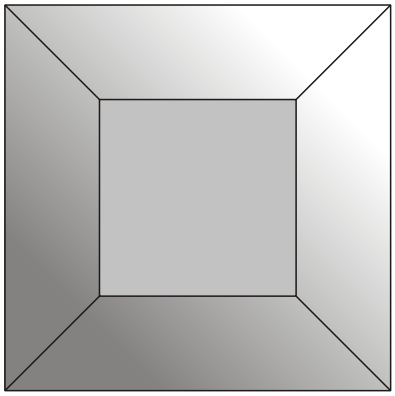


Standard design
Beispiel/Example: SLB-22

Floatglas/s 5 mm klar/clear
Kante/edge 2,5 mm poliert/polished
Facette 12,7 mm poliert/bevel ½ inch polished

SLB-22-1.8

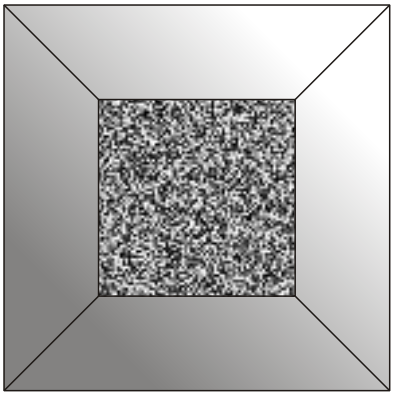
Facettenelemente mit 1,8 mm-Kante sind für die Verwendung mit Farbfilmen und selbstklebenden Bleibändern entwickelt worden.
Bevels with an edge of 1,8 mm were developed for use with colour films and self-adhesive lead/tape.



Satiniert/Frosted

Wie Standard, jedoch von klaren Facetten umgebene Flächen vollständig satiniert
Glazed as standard, however the area surrounded the clear bevel completely frosted

Nummer/Code: SLB-22-fr



Eisblume/Glue chip

Wie Standard, jedoch von klaren Facetten umgebene Fläche vollständig in Eisblumenglas
Glazed as standard, however the area surrounding the clear bevels completely finished in glue chip

Nummer/Code: SLB-22-gc
