Portable glass shop, basic set with many accessories (Audio CD, Cutting Bar, Squaring Fence, Small squaring Fence, Squaring Block, Bar Locks, Glass Shop ruler, Cutter Gauge, Glass Stops, Bar Spacer, Angle Copy, 120°, 60°, 90° Fast Angle, 4 inch plastic square, Foil Tape)

HINWEISE:
Die Basis des MORTON-Systems ist eine unten geschlossene Rasterlochplatte, auf der sich alle weiteren Teile problemlos montieren lassen. Durch die geschlossene Unterseite wird verhindert, dass die kleinen Glassplitter auf den Boden fallen. Verletzungen werden verhindert und Sie können sehr lange arbeiten, ohne Ihre Arbeitsfläche ständig abfegen zu müssen.
Zur tragbaren MORTON-Glaswerkstatt (Art.Nr. 36 136 50) gehören alle Vorrichtungen, die zum Schneiden von vielen geometrischen Formen benötigt werden (Streifen, Quadrate, Rauten usw.).
NOTE:
The basis of the MORTON system is a perforated tile grid which is closed on the bottom, onto which all accessories are easily attached. By means of the closed bottom surface, small glass fragments are prevented from falling on the ground.
Injuries are prevented, and you are able to work for extended periods of time without having to constantly clean up your work surface.
The portable MORTON Glass working station (Art.No. 36,136 50) comes with all accessories necessary for cutting many geometrical shapes (strips, squares, rhombus etc.).
